ABOUT ME

I am a Full-Stack Web Developer with 2+ years of independent experience in web development using mostly React.js, Express, Node, and MongoDB. I have learned everything about web development on my own, fueled by my tenacious curiosity and interest in computer science. I will continue to learn and grow and become a senior developer with the capacity to help others on their journey to become the best developers they can be.

SKILLS & INTERESTS

- **Skills:** HTML5, CSS3, JavaScript, React, Node, NPM, Express, MongoDB, Git, SQL, Python, OOP, Bootstrap, Linux, MacOS, Windows, Leadership, Stakeholder Management, Customer Service
- **Interests:** Video games, Web Development and building web apps, helping others learn and progress in life

WORK EXPERIENCE

Independent Developer / Freelance   **Jun. 2021 – Present**
Developing web applications for my portfolio and for local clients   *Meadowview, VA*

- Producing valuable websites to clients such as churches, garages, and photography businesses.
- Creating personal projects that showcase my skill development
- Good understanding of the full-stack process of web development.
- Proficient in the MERN stack with an emphasis on vanilla JavaScript and React and Front-End Development.
- Profound sense of curiosity and strong desire to learn more on a daily basis. Averaging 50 hours spent on web development weekly in spite of a full-time job.

Exit 29 Garage   **Mar. 2020 – Present**
Lead Mechanic at a small town garage that is well renowned to the community
as a place that puts customer's needs first   *Glade Spring, VA*

- Responsible for the development and performance of 3 mechanics on shift
- Added new avenue of profit for the company by certification in different skills
- Accurately advise customers of labor, parts cost, and upselling services
- Added customer value by building trust with clients and being a reputable figure

Carmax   **Oct. 2017 – Mar. 2020**
Inventory / Reconditioning Lead at a large Fortune 100 company with over 27,000 associates   *Bristol, TN*

- Consistently delivered feedback on employee performance from write-ups to associate recommendations.
- Promoted 4 times within 2 years. Selected as the store's MVP and a member of the Carmax President's Club.
- Held daily meetings to strategize daily work load and associate development.
- Volunteered at food drives and animal shelters as a company to give back to the community.
- Managed stakeholder interests by listening to feedback and applying it to the team.

Bristol Compressors   **Dec. 2015 – Oct. 2017**
Technician at a local factory making refrigeration compressors for deep freezers   *Bristol, VA*

- Work quickly and effectively with other associates under time constraints.
- Organize work flow to increase productivity with co-workers.
- Awarded with raises as a result from perfect attendance, high production rates, and work friendliness

EDUCATION

Northeast State Community College   **Aug. 2017 – Jan. 2019**
Associates in Applied Science in Computer Programming   - Incomplete   *Blountville, TN*

- Excelled in CISCO Networking classes, Computer Hardware, Programming and Web Development
- Held a class presentation on how to build a desktop computer
- Worked with a team of classmates to build a website for a class project
- Learned the ins and outs of Linux CLI to manage a classroom server
- Used Python to build small back-end applications that were graded coursework
